

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

USF fees should not be shifted from large businesses to private consumers. That would be typical Republican behavior to support large business and mess over the little guy. President Bush has already done this by interfering with citizens getting cheap medication from Canada, cutting down on awards in class action suits against big business, and refusing to do anything about gas prices---like demanding big only make less profit and releasing some of the strategic reserves.

It is time big business paid for what it uses instead of always shifting the burden to consumers and raising prices anyway. Please do not add to the burden of the taxpayers.

Sincerely,

Rhonda Browning
